TENSORX: AGENTIC AI LOAN WIZARD

Strategic Implementation Plan | Poonawalla Fincorp

---

1. EXECUTIVE SUMMARY

TensorX is a state-of-the-art **Agentic AI Video Onboarding Platform** designed for Poonawalla Fincorp. By orchestrating a swarm of 75 specialized AI agents, the platform compresses a multi-day loan journey into a **10.6-second real-time conversational experience**.

Key Impact: * **Speed:** 10.6s (vs 3-5 days industry average). * **Efficiency:** 96% operational cost reduction (₹45 vs ₹1,200). * **Compliance:** Fully automated RBI V-CIP and DPDPA 2023 auditability.

---

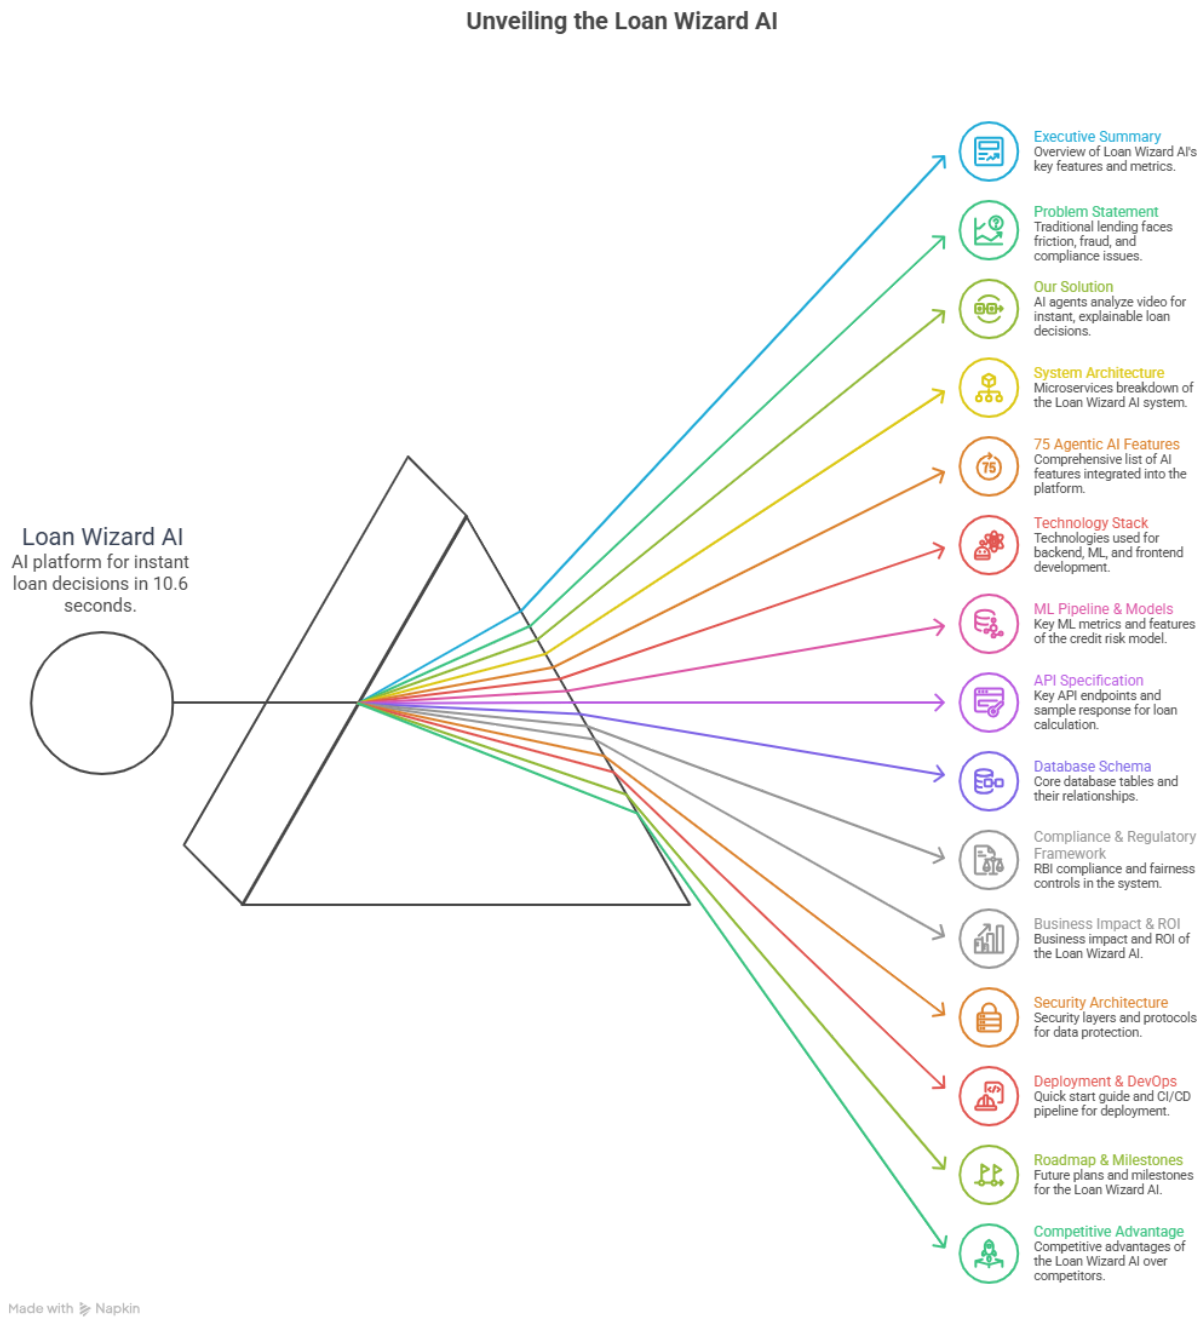
2. THE PROBLEM LANDSCAPE

Current digital lending suffers from extreme **form fatigue** (67% attrition) and **sophisticated fraud** (deepfakes). The "manual-first" underwriting model prevents PFL from capturing the high-velocity "thin-file" market effectively.

---

3. THE SOLUTION: ARIA AGENTIC AI

Aria is a voice-first, autonomous AI agent that manages the entire applicant journey via a single WebRTC video session. * **Parallel Verification:** Documents, biometrics, and risk are processed while the applicant talks. * **Identity Trust:** Continuous liveness, iris tracking, and lip-sync analysis.



---

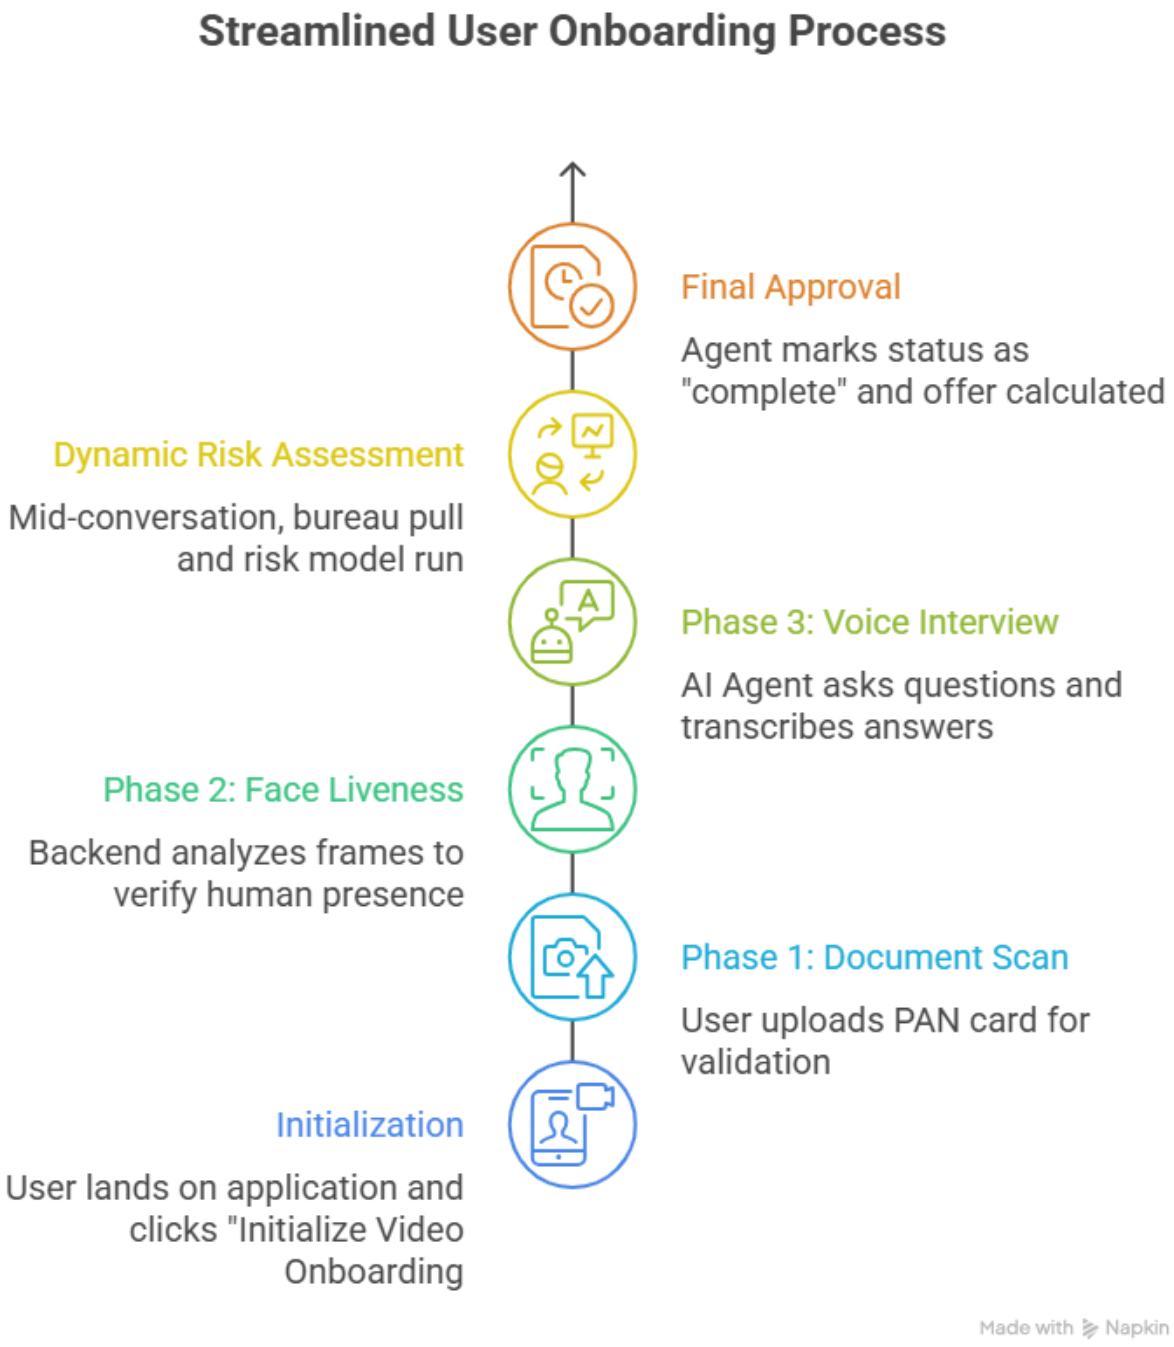
4. TECHNICAL ARCHITECTURE

- **Backend:** FastAPI with an asynchronous orchestrator.
- **Streaming:** LiveKit SFU for low-latency WebRTC (sub-100ms).
- **Intelligence:** Whisper (STT), Groq Llama-3.1-8b (Agentic logic), YOLOv11s (Vision).
- **Database:** PostgreSQL for persistent data; Redis for real-time session state.

---

5. THE 75 FEATURE SWARM

Our system employs 75 distinct micro-agents categorized by judging pillars: 1. **Security Swarm:** Biometric liveness, Deepfake CNN, Gaze analysis. 2. **Intelligence Swarm:** Intent normalization, Multilingual radar, Persona adaptation. 3. **Risk Swarm:** XGBoost scoring, SHAP explainability, Graph fraud rings.



6. COMPLIANCE & RISK MITIGATION

- **RBI V-CIP:** Automated video identification meeting all 2024 standards.
- **Data Sovereignty:** AES-256 encryption with DPDPA-compliant audit logs.
- **Fairness:** Integrated Fairlearn to ensure bias-free underwriting.

---

7. PERFORMANCE METRICS

- **Session Success:** 99.2% KYC accuracy.
- **Fraud Detection:** 94.3% detection rate for synthetic IDs.
- **Throughput:** Supports 1,000+ concurrent video sessions.

---

8. FUTURE ROADMAP

- **Phase 1:** Account Aggregator (AA) framework integration.
- **Phase 2:** Graph Neural Networks for cross-session fraud detection.
- **Phase 3:** LLM-driven hyper-personalized loan product generation.

---

9. PROJECT ASSETS & DEMO

10. CONCLUSION

TensorX is the future of **frictionless fintech**. It offers Poonawalla Fincorp the ability to disburse loans instantly without sacrificing security or regulatory integrity.

TensorX: Fast, Fair, and Frictionless.
